An outstanding novelty. Cottage Tulip Hollands Glory. A Tulip of immense size and beauty.

Double Early Tulip Orange Nassau. An excellent Tulip for bedding.

Single Early Tulip Keizerskroon. A very sturdy and outstanding Tulip.

To All Our Gardening Friends,

We have pleasure to present to you our Fall catalogue 1953, listing all kinds of flowering Bulbs. As you will notice our catalogue has been specially printed in Holland this season and has been mailed to you direct from our Head Office at Limmen, Holland. We did our utmost to make it as complete as possible, adding several new varieties again and we are sure that you will find many interesting novelties.

With our experience in growing and shipping Bulbs since 1868 we will be able to supply you with bulbs of the choicest quality. All Bulbs are guaranteed to be Top size, true to name and color and free from diseases, duly inspected by the

Government Inspectors before leaving our warehouses.

In order to give you even better service and allow our customers, in case they desire so, to select their bulbs personally from our stock, we have decided to continue our retail trade direct from our head quarters at Ipswich, Mass., where our office, warehouses and show-gardens are established at Cogwell Street (Opposite Wharf), P.O.Box 361, telephone Ipswich 6. During the flowering season many varieties can be seen in bloom in our extensive show-gardens, and you are cordially invited to come and admire their beauty.

Please order early and we will make delivery at the earliest date possible. All orders are filled in rotation and Bulbs do not arrive from Holland until about the

end of September.

We thank all our customers for past favors and we very much appreciate all the enthusiastic letters we received, indicating the excellent results our customers had in growing our Bulbs.

Your esteemed orders will be appreciated again and we will continue to look after them personally and fill them with the best stock obtainable in Holland,

Sincerely Yours,

THE HOLLAND BULB GARDENS Inc.

PLEASE NOTE THE CHANGE OF ADDRESS FROM SALEM. MASS, TO IPSWICH, MASS.

GENERAL REMARKS AND TERMS.

DARWIN TULIPS

"THE ARISTOCRATS OF TULIPDOM"

We know of no other Tulips so useful for various purposes, as the Darwin Tulips, with their bright colors, their large flowers on long graceful stems, their wonderful substance and lasting qualities.

For bedding, planting in borders and general gardening purposes, as well as for outside grown cutflowers, there are no better and more pleasing Tulips than the glorious Darwins.

No May garden is complete without Darwin Tulips, which possess a beauty and attractiveness all of their own.

Cat.	No.	Per doz.	Per 100
	ADORATION, a very good tulip for bedding with very strong and longshaped flowers of a salmon pink color. AFTERGLOW, one of the most outstanding tulips for	1.25	9.00
	bedding purposes. Very beautiful orange rose with distinct orange edge	0.85	6.50
	with a strong stem and a large globular flower ANTON MAUVE, large flower of a very nice lilac mauve	0.85	6.50
	color with a lighter edge. Recommended	1.10	8.00

Cat.	No.	Per doz.	Per 100
36	CITY OF HAARLEM, a tremendous flower of perfect form,		
	vermilion scarlet with large beautiful base of black with blue halo, unexcelled in its color for bedding	1.30	9.00
37	CLARA BUTT, an old standby, but still one of the best		
	tulips in its color of clear self-colored salmon rose pink with well shaped flowers	0.85	6.50
38	DEMETER , a very deep purple tulip, which flowers earlier		
	than any other Darwin Tulip. Very suitable for early forcing	1.60	12.00
39	DORRY OVERALL , one of the newer Darwin Tulips of a fine dark petunia violet color with a lighter edge. Very		
	suitable for bedding with lighter colors	1.25	9.00
40	DRESDEN CHINA , a magnificent tulip of great merit. The color resembles very much the unusual and fine colors		
	we will find in Dresden China. Fine soft rose with lighter	1.10	8.00
41	DUKE OF WELLINGTON, a pure white flower of good	1.10	0.00
	form, creamy anthers and base, good lasting qualities and a handsome bedder	1.00	7.50
42	ECLIPSE, a very large tulip of a glistening blood red, with		7.5
	a steel blue base on a strong stem. Very good lasting qualities	1.30	9.00
43	FARNCOMBE SANDERS, a magnificent cochineal-red flower, which we can recommend specially for bedding	Ü	Ü
	and which will make a fine show in combination with		6
4.4	GIANT, a real giant because of the size of its flower and	0.85	6.50
44	its tall stem. A rich deep purple shaded violet	1.30	9.00
45	GLACIER (Wildlust), one of the best white Tulips. It opens light ivory and turns to pure white. This tulip has white		
. C	anthers and a white base. Highly recommended	1.10	8.00
46	GLORIA SWANSON , a very large flower, color a Raspberry-red flushed garnet, with blue base. A strong stem		
47	and excellent lasting qualities	0.90	7.00
47	qualities as this tulip. Big wellshaped flowers of a deep		
	buttercup yellow with a touch of orange when in full bloom, on a tall stiff stem	1.30	9.00
48	GOLDEN MEASURE, Inside a deep golden yellow, out-		
	side canary yellow with a small red line. Very much admired because of its fine egg-shaped flower	1.10	8.00
49	INSURPASSABLE , This tulip will make a fine show in your border, but also is very suitable for late forcing.		
	Large lilac flowers with fine lasting qualities	1.10	8.00
50	LADY HILLINGDON , a very special color of orange shaded buff. Flowers are of medium size on a fine stem	1.10	8.00
51	LA TULIPE NOIRE , often called "The Black Tulip". In fact it is a very deep maroon, almost black color. Very		
	popular for planting in groups with yellow tulips. The		
52	flower is of a perfect form and has a good substance MADAME BUTTERFLY , a much recommended variety	1.10	8.00
J~	because of its fine bluish violet color with a paler edge		
	and its big well shaped flower on a strong tall stem. Very suitable for bedding	1.10	8.00
53	MARGEAUX, a beautiful flower of deep wine-red, edged lighter, on a strong stiff stem. Recommended	1.00	7.50
54	MR. VAN ZIJL, one of the most beautiful varieties, a solid	1.00	7.50
	flower of a rose pink color with lighter edge and very good lasting qualities	1.10	8.00
	0 1	1,10	0.00

Cat.	no.	Per doz.	Per 100
55	NIPHETOS , a tulip which will make a real show in your garden because of its beautiful large flowers of a uniform soft lemon yellow color, with light anthers and a very tall		
56	PAUL RICHTER, one of the newer varieties with a fine cup shaped flower of geranium red color. Much recom-	1.50	10,00
57	mended for bedding, but also suitable for forcing PIETER DE HOOGH, a beautiful lilac-rose edged salmon rose. Recommended for cutting because of its strong	2.00	14.00
58	stem and the good lasting qualities	1.20	8.50
59	shrubs	0.85	6.50
60	PRINCESS ELISABETH MAXIMA, a larger sport of the old Pr. Elisabeth. Large flower of vivid rosy pink with a	1.20	8.50
61	white base. Suitable for bedding as well as for late forcing PRUNUS , a salmon-pink sport of Bartigon, well formed	1.10	8.00
62	flower on a tall strong stem. Also suitable for late forcing QUEEN OF THE NIGHT , the best "black" tulip on the market. From a distance this large very deep velvet maroon flower looks really black. For a good color effect	0.90	7.00
63	this tulip cannot be missed in your garden ROSE COPLAND, a dark pink sport of William Copland,	1.00	7.50
64	which is most suitable for cutting and early forcing SCARLET LEADER , an outstanding variety amongst the red tulips because of its tremendous flower of a brilliant scarlet color. Very suitable for bedding and for planting	0.85	6.50
65	in your border	1.10	8.00
66	substance and excellent lasting qualities SMILING QUEEN, a more recent introduction and a tulip with a great future because of its beautiful satiny pink color with a silvery edge and a white base. The flower is of a perfect form and held on a tall erect stem. You should not miss to have this tulip in your garden. Much	1.10	8.00
67	recommended	1.40	2.00
68	stem and very good lasting qualities. Will make a fine show in combination with dark colored tulips THE BISHOP, an extra fine variety because of its large flower of a beautiful deep violet color with a small blue	1.10	8.00
69	base and white halo on a very strong stem THE PEACH, the color of this tulip really resembles very much the color of a peach. The flower is held on a strong	1.20	8.50
70	tall stem and has a large white base. Recommended WHITE GIANT, one of the largest pure white tulips with a white base and black anthers. Fine formed flowers of	1.10	8.00
71	long lasting qualities WILLIAM PITT, an old standing variety, which is very suitable for forcing, but also very good for bedding. A very	1.00	7.50
72	fine scarlet with darker shade on the outer petals ZWANENBURG , one of the most dependable white Darwins, large pure white flowers with black anthers on tall	0.85	6.50
	stems. Recommended for bedding	1.00	7.50

COTTAGE TULIPS

Single Late Tulips flower about the same time as the Darwin Tulips and this class is specially noted for its wide variation in color, shape and habit of flowers, which make the Single Late Tulips useful also as cutflowers outside. Although some very good forcing varieties are found amongst the Single Late Tulips, this class is used mostly for bedding, for planting in borders and general gardening purposes for which they are excellently suitable.

Cat.	no.	Per doz.	Per 100
73	ADVANCE , Still the very best red Cottage Tulip we can list. Outstanding because of its tremendous large flower of a blazing orange scarlet color, tinted cerise. Excellent		
74	for the border	1.50	11.00
75	bedding	1.10	8.00
76	changing to bronze-red. Very fine for the border	0.85	6.50
77	BELLE JAUNE , a well shaped Indian yellow Tulip on a strong erect stem. Recommended for bedding or border DIDO , a very attractive Tulip because of its fine orange-red	1.00	7.50
78	color with a bright orange edge with a yellow base. The large flowers are of a perfect form	0.85	6.50
79	which in many ways resembles a Darwin Tulip because of its very strong and tall stem and nice large flower. Also suitable for late forcing	0.90	7.00
	Mayflowering Tulips under cultivation with a fine yellow base. A very elegant Tulip which we can recommend for planting between Evergreens	1.30	9.00
80	a sensation at recent shows. The beautiful flower is twice the size of any normal Tulipflower with a striking orange		
	red color and a beautiful yellow base on an extremely strong stem. This Tulip is a real giant among other Tulips and the best novelty available each 2.50

THE ROBUST BREEDER TULIPS

These much desirable Tulips are still very much in demand, because of their fine ,,art"

colors, ranging from purple to orange and bronze, all very special colors not easily found in the other Mayflowering Tulips.

Some varieties flower a few days later than the Darwin and Cottage Tulips and if you really wish to stretch your Tulip flowering season as long as possible you will need some of these very tall and robust growing Tulips.

TRIUMPH TULIPS

The Triumph Tulips are the result of a crossing between Early Tulips and Darwin Tulips. They have a very vigorous habit of growing and are about 16 to 18 inches tall. Their outstanding colors make them very attractive for the garden, they take a special place, as they bloom between the Early and the Darwin Tulips and so fill the gap between these classes.

DOUBLE LATE PEONY FLOWERING TULIPS

Including Double Triumph Tulips

A complete new group of Tulips greatly admired during the International Flowershow ,,The Flora" in Holland this Spring, where this group drew very much attention and general admiration.

Wonderful results have been obtained with the hybridisation of these new varieties and they must be regarded as a great addition to our Tulip-assortment. The stock of most of these novelties is still limited and the demand for several varieties will surpass the supply for the next three or four years, which will make early ordering advisable. They are May-flowering Tulips, almost as tall as Darwin Tulips, with strong and sturdy stems, carrying Peony-shaped double Flowers of excellent lasting qualities. They

are splendid for bedding and for borders.

NEW PARROT TULIPS

A new class of Tulips, which has proven to be very popular. Your Tulip assortment is not complete without these amazing Tulips. Many new varieties and improvements have been added and we can strongly recommend them. They differ altogether in shape from the other Tulips as they are heavily feathered and frilled, open very wide and produce enormous flowers. Some varieties are very scarce and we advise you to place your order in time. They are a great improvement over the old-fashioned Parrot Tulips, as they have tall and much stronger stems than the old Parrot type.

Cat.	no.	Per doz.	Per 100
145	BLACK PARROT , a novelty which will catch your eye at every place in your border. The enormous flower of a gleaming purplish black is carried on a fine tall stem	0.40	
146	BLUE PARROT, a sport of Darwin Tulip Bleu Aimable, a very large beautiful flower on a strong stem, a bright bluish-heliotrope with a purple interior. It opens to	2.50	
147	an enormous size. Recommended	1.10	8.00
148	violet-pink edged silvery-white	2,00	14.00
149	for bedding as well as for borders FIREBIRD, this is a red sport of Fantasy, with the same outstanding qualities, but instead of soft rose this tulip	1.00	7.50
150	has a fine vermilion scarlet color with green streaks GADELAN, this large tulip, with its heavily frilled flowers has a very special violet mauve color, shaded purple	1.10	8.00
151	with a white base KAREL DOORMAN, a novelty of recent years, which as a sport of Triumph Tulip Alberio has excellent qualities. A very sturdy and erect stem. Flowers are of a perfect Parrot Tulip shape, heavily frilled and of a cherry-red	1.60	12.00
152	orange favorite, although not as strongly frilled as the other Parrot Tulips, it still is a very attractive variety because of its wonderful sweet scent, its fine orange-red	2.00	
153	flower with yellow base, which makes it a favorite RED CHAMPION , this tulip is a sport of Darwin Tulip Bartigon and can boast on the same long lasting qualities and a flower of very fine substance, bright crimson, shaded rosy-red with a white base. A very strong and	1.00	7.50
154	REX, an amazing novelty and a sport of the Single Early Tulip Keizerskroon. A flower of a tremendous size, bright red with a broad golden yellow border on a short but sturdy stem. Nicely frilled along the edges. Very early	1.40	10.00
155	sunshine, not as tall as the other Parrot Tulips, but by far the very best golden yellow one, with black anthers.	3.00	
165	A perfect shape and very good lasting qualities THERESE , a very large flower of fiery rose-scarlet on a tall	1.20	8.50

THE BOTANICAL TULIPS

Tulipa Species

This class of Tulips is becoming more and more popular every year and no wonder for we cannot imagine anything more beautiful than a bed of Tulipa Mad. Lefeber or a batch of Tulipa Kaufmanniana. Most species Tulips originate from Persia and Central Asia and are in contrast with

all other Tulips listed in this catalogue, no hybrids, but original forms. For this reason,

this class has so many different forms and types of flowers, which makes every variety a separate and interesting specimen. They all are splendid for rockgardens and because many varieties flower earlier than your Single Early Tulips, they really brighten up your border in the early Spring, with their unusual bright and gay colors.

Cat.	no.	Per doz.	Per 100
158	BIFLORA, multiflora, small white flowers with white centre	1.10	8.00
159	CLUSIANA , outer petals cherry-red; inner petals white	1.20	8.50

NARCISSUS AND DAFFODILS

All our Narcissus and Daffodils are supplied in extra selected topsize double nose bulbs, which will produce from 2 to 4 flowers.

With their unsurpassed beauty, Daffodils and Narcissus have gained a prominent place in the Spring Garden. In every garden there are so many spots between Evergreens,

or under trees where other bulbs or plants will not thrive, but Daffodils and Narcissus

Bulbs make good gifts. We will be pleased to look after special orders

will make such spots the most valuable parts of your garden. If you leave them undisturbed they will produce flowers every Spring for years in succession. But also in borders they will make a marvellous show. In our opinion they deserve more popularity for forcing in pots too. Kept in a cool dark spot, watered once a week and brought into the living room when the sprouts are about 2 inches tall, they will prove very easy forcers and when in bloom they will last well, sometimes up to two weeks. A small investment now and a great success will be achieved during the dark Winterdays.

YELLOW TRUMPETS

One flower to a stem. Trumpet or Corona as long or longer than the Perianth segments.

RED AND PINK VARIETIES

Cat. No.

267

ANNA MARIE, a recent introduction of clear pink. Very early and good for forcing. Enormous spike.

JAN BOS, a medium size spike, but the best red color available. Very fine for pots. 260

LADY DERBY, fine pink, large bells. 261

MARCONI, deep rosy pink, recommended for all purposes. 262

LA VICTOIRE, brilliant carmine red, large spike. Suitable 263 for all purposes.

PINK PEARL, rosy pink, large spike, early. One of the best 264 Pink Hyacinths.

QUEEN OF THE PINKS, lovely bright rosy pink. Large 265 spike of fine bells. Very good for bedding.

WHITE VARIETIES

266 L'INNOCENCE, pure white, very large well shaped bells, early and excellent for forcing and a good bedder. The most popular of all white Hyacinths.

EDELWEISS, pure white, sturdy broad compact spike. Large

fleshy bells, fine early forcer.

268 **CARNEGIE**, a recent introduction with excellent qualities. Very large bells and a sturdy grower.

LIGHT AND DARK BLUE VARIETIES

269 BISMARCK, skyblue, large truss, excellent for early forcing. **DELFT'S BLUE**, a novelty of bright porcelain blue with a 270

very compact truss. Recommended for all purposes.

DR. LIEBER, medium blue, tall spike. 271

DUCHESS OF WESTMINSTER, beautiful deep blue with striking white centered bells.

273

GRAND MAITRE, fine deep porcelain blue.
KING OF THE BLUES, the best dark blue, with splendid 274 well formed large spike on short stem. Late forcer and good bedder.

MYOSOTIS, pale porcelain blue, long spike and good 275 forcer.

Cat. no.

276 PERLE BRILLANTE, fine lavender blue, large spike.

YELLOW

277 CITY OF HAARLEM, yellow, large spike, extra fine.

HYACINTH GLASSES

Hyacinths are also very suitable for growing on glasses, which method is very simple. Fill the glasses with water and the bulbs are placed upon them in such a way that the bottom of the bulb is resting a little above the water BUT DOES NOT TOUCH IT. This is very important: There should be a space of about one tenth of an inch between the bottom of the bulb and the level of the water. No more and no less. Then you put the glasses in a dark cool place, e.g. cellar or cupboard until the sprouts are about $1\frac{1}{2}$ to 2 inches long after which they can be brought into a warm room and into full light. This will take at least six weeks.

CROCUS

The prettiest and most popular early Spring Flowers. Crocus can be planted in any place and they do not need any special care. Once planted they come back year after year with an increasing richness of flowers. Some varieties are also splendid for forcing, but for this purpose Mixed varieties should never be used.

	tall, with large purple rose flowers in July. Suitable		0.50
	for cutting	0.30	2.50

AMARYLLIS (Hippeastrum)

Through very careful hybridizing and selecting Dutch growers have succeeded in producing a strain of Amaryllis, which is much superior to the old types. They produce larger bulbs with more flowers of outstanding form. The flowers are very large, have well overlapping petals and are twice the size of the flowers of the old type. Amaryllis can easily be grown in pots in the home. They can be brought into the light and heated room, right after planting them. They should be potted up from December to March and flower about 6 weeks after the planting date.

	selected large strain	2.00

ANEMONES

With their bright colored flowers, Anemones belong to the most popular garden bulbs. They should be planted about 2 inches deep and 5 inches apart in a sunny position. Because of the difference in hardiness we have divided them into two groups:

Group A. Summerflowering Anemones, which should be planted right after the danger of frost is over. They can also be planted in the Fall, in which case they will flower much earlier, however in this case they must be well covered for protection against frost.

Cat.	No.			Per doz.	Per 100

307	39	33	The Admiral, rose violet	0.70	5.00
308	>>	23	The Governor, brilliant red	0.70	5.00

Group B. Springflowering Anemones which are perfectly hardy, however in places with very severe frost a slight covering is advised. They produce many flowers with very bright colors, however do not grow as tall as the Summerflowering Anemones and so are very suitable for Rockgardens and naturalizing, as well as for your border.

Cat.	No.		Per doz.	Per 100
309	ANEMON	NE Appenina Alba, white, large flowers	0.65	4.50

CHIONODOXA (Glory of the Snow)

No wonder they call this flower Glory of the Snow. As soon as the snow disappears these bright skyblue flowers, growing about 5 inches high will show up with their beautiful star-shaped flowers. A real perfect early Spring flower, which is suitable for planting in the lawn and naturalizing and if left undisturbed they will produce more flowers every year. Very much recommended.

MUSCARI (Grape Hyacinths)

Flowering in April or May this family of Spring Flowers is still very popular because of their abundance of flowers and little care they need. When used for naturalizing they will produce more flowers every year. They grow about 8 inches tall and produce small spikes with ball shaped flowers, resembling small Hyacinths, for Rockgardens or naturalizing. Also suitable for slow forcing.
